Sanitary Inline Sight Glass

Pharmacy process and clean utility sight glass from 1" to 4" tri clamp connections Sanitary inline and window style sight glasses meet the exacting standards required for your upstream or downstream process visualization needs. Material SS304 ,SS316L Connection 1" 1.5" 2" 2.5" 3" 4" Finish Hygenic polished Operate pressure 0-6bar

Material SS304 ,SS316L
Connection 1" 1.5" 2" 2.5" 3" 4"
Finish Hygenic polished
Operate pressure 0-6bar

Stainless Steel Hygienic Tri Clamp Liquid Sight Glass

This is a new type of sight glass designed by Kosun Fluid. It has the characteristics of very compact design, the overall length of this sight glass is shorter than normal inline sight glass. 1.5" tri clamp connection

Material:304 or 316 Stainless steel
Connection:Tri clamp type
Size:From 1.5" to 4"
Max pressure:6 bar (higher pressure could be customized)

Stainless Steel Tri Clamp Sanitary Sight Glass 1.5"

This type of sight glass is the most commonly used and popular sight glass on the market. This sight glass is divided into two types: with protective net and without protective net. It consists of two flange like fitting and glass.

Material:304 or 316 Stainless steel
Connection:Tri clamp type
Size:From 1.5" to 4"
Max pressure:6 bar (higher pressure could be customized)

Stainless Steel High Pressure Sight Glass

The objective of a sight glass is to provide a window into a pressure vessel, a hot temperature or corrosive process environment, for machine vision or live observation. We offer stock sanitary sight glasses, sight windows for high pressure and high temperature environments for semiconductor reactors, tank sight glasses, oil level sight glass and sight windows for imaging systems.

Material:304 or 316 Stainless steel
Connection:Flange type
Size:From DN25 to DN200
Max pressure:6 bar or above

Stainless Steel Flange Sight Glass With Lamp

In some working conditions, the sight glass needs a flashlight to better observe the inner tank conditions. The sight glass with lamp is designed for such a working condition.

Material:304 or 316 Stainless steel
Connection:Flange type
Size:From DN65 to DN200
Max pressure:6 bar or above

Stainless Steel Cross Type Sight Glass

Cross type sight glasses are typical and commonly used sight glasses. Sanitary Cross type Sight Glass is four way design. With the connection type of tri clamp, DIN or SMS union, welding end. The sight glass could be used to build in the pipeline. The two sight viewing window could be union type or flange type

Material:304 or 316 Stainless steel
Connection:Tri clamp type
Size:From 1.5" to 4"
Max pressure:6 bar (higher pressure could be customized)

Stainless Steel Dn50 Flange Type Tank Sight Glass

Flange type inline sight glass is with flange connections on both end. It is used in industrial flange pipeline.

Material:304 or 316 Stainless steel
Connection:Flange type
Size:From DN25 to DN200
Max pressure:6 bar or above

KQSUN FLUID

Stainless Steel Union Type Sight Glass

The union type sight glass is a typical sight glass used to welded to sanitary tanks. The installation size of union type sight glass is small , and the operation is simple and fast.

Material: 304 or 316 Stainless steel

Connection: Welding type

Size: DN25 to DN200

Max pressure: 6 bar or above
