KQSUN FLUID

### Stainless Steel Butterfly Ball Valve

Stainless steel butterfly ball valve is a special ball valve with a butterfly valve outlook but a ball inside of the valve body.

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### Ss304 Ss316 Tank Bottom Ball Valve

Stainless steel tank bottom valve is a special ball valve that weld to the bottom of a hygienic tank. The ball valve is a tank bottom valve specially designed for the emptying and discharging of pressure vessels and storage tank equipment

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### Stainless Steel Sanitary 3 Way Ball Valve

The three way ball valve have two type of flow way T type and L type. Through the rotating of the ball, The flow of the fluid will be change to one of the three port of the valve. The valve is made of 304 or 316 stainless steel. The connection type including Weld, tri clamp, SMS DIN RJT Union etc

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### Pneumatic Actuated Automatic Ball Valves

Pneumatic ball valve is a ball valve equipped with a pneumatic actuator. The execution speed of the pneumatic actuator is relatively fast. The fastest switching speed is 0.05 seconds/time, so it is usually called a pneumatic quick-cut ball valve.

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### Electric Actuator Motorized Actuated Operated Ball Valve

Electronic Ball Valve is composed of an electric actuator and a ball valve. The electric supply of the actuator motor is normally 24V AC. Electric driven actuator is one of the most commonly used and most reliable types of actuator in the world. It has the characteristics of large output torque and strong stability.

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### Stainless Steel Hygienic Food Grade Tri Clamp Ball Valve

This type of ball valve is fully hygienic design, with a clamp in the middle of the valve, it could be disassembled very easily to have a full cleaning of the valve.

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### Stainless Steel Sanitary Tri Clamp Ball Valve

This type of ball valve is the most commonly used, most economic type of sanitary ball valve. The connection of this type of valve is tri clamp. The valve could also be equipped with a pneumatic or electric actuator. Sanitary ball valves are also called a hygienic ball valve which is opened by turning handles attached to balls inside the valves. The ball has a hole or port through the middle. When the port is in line with both ends of the valve, the flow will occur. When the valve i...

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### **Stainless Steel Three Piece 3pcs Ball Valve**

The stainless steel three pieces ball valve is a heavy duty type ball valve designed for high pressure working condition. It is originally used in industrial application. But in some of food or pharmacy applications, this type of ball valve is also used with a tri clamp connector on both ends

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic

KQSUN FLUID

### **304 316 Ss Stainless Steel Thread Inch Ball Valve**

The thread ball valve is a typical industrial use ball valve. It is widely used in all industries. The thread of ball valve could be BSP thread, NPT thread. The valve body material is 304 stainless steel or 316 stainless steel. We have one piece ball valve and two pieces ball valve.

Material:304 or 316

Size:DN25-DN100

Seal material:PTFE Teflon

Drive:Manual, Electric, Pneumatic
