### Sliverson Style High Shear Mixer

sliverson style high shear mixer

### Bottom Mounted Homogenizer Mixer Stainless Steel

Bottom mounted homogenizer mixer stainless steel

### Batch High Shear Mixer

Batch High shear mixer for emulsifying and homogenizing

### Stainless Steel High Shear Emulsifier Homogenizer With Stand

Kosun High Shear batch mixer is used for high speed shearing and emulsification applications. The mixing head is composed of a rotor and stator, It is normally working at 2800 RPM, Hence the shearing force is very strong.

### Stainless Steel Emulsifier High Speed Shear Mixer

The high speed shear emulsifier integrates the functions of mixing, dispersing, refinement, homogenization, and emulsification. It is usually installed with the kettle body or on a mobile lifter stand or a fixed stand, and is used in conjunction with an open container.

### Stainless Steel Food Homogenizer Mixer Emulsifier

The HBM mixer is a rotor stator mixer, also called high shear mixer, is efficient, fast and evenly mix the material with one-phase or multiple-phase to another. In normal condition, the respective phases are mutually insoluble.

Silverson is a brand that is synonymous with high-quality mixing machines, and one of their standout products is the Silverson Style High Shear Batch Mixer. This fantastic piece of machinery is designed to deliver consistent and high-quality mixing results in a range of industries.

The Silverson Style High Shear Batch Mixer uses a unique design that helps to promote mixing efficiency. Its high shear characteristics help to break down and disperse particles, ensuring that the mixture is thoroughly mixed and consistent throughout. This is especially important in industries such as pharmaceuticals and food processing, where the quality and consistency of the mixture determine the final product's quality.

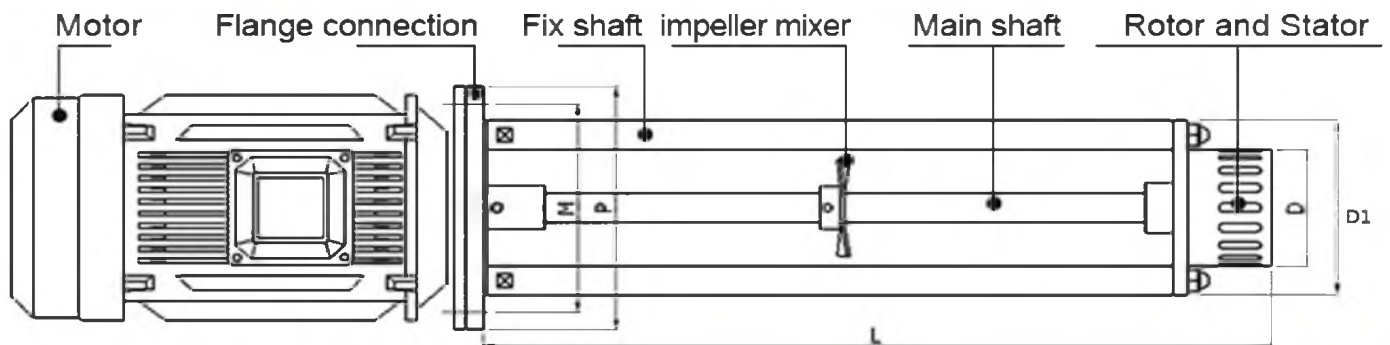

One of the key features of this mixer is its versatility. It can be used to mix a range of products, including powders, liquids, and solids. This makes it an ideal choice for a range of industries, including cosmetics, cleaning products, and pharmaceuticals.

The Silverson Style High Shear Batch Mixer is also incredibly easy to operate. It features a unique control system that allows the operator to adjust the mixing speed and intensity quickly. This ensures that the mixer can be tailored to suit the specific requirements of each batch.

Another standout feature of this mixer is its durability. It is built to last, with high-quality materials and engineering that ensure it can withstand even the most demanding of production environments. This means that businesses can rely on the Silverson Style High Shear Batch Mixer to perform optimally for years to come, delivering consistent and high-quality mixing results every time.

In conclusion, the Silverson Style High Shear Batch Mixer is an outstanding piece of machinery that offers versatility, consistency, and durability. It has already proven itself indispensable to many businesses across a range of industries and will undoubtedly continue to do so for many years to come.

<b>BRAND</b>	<b>KOSUN FLUID</b>	<b>MATERIAL</b>	<b>SS304 / 316L</b>
<b>SURFACE FINISH</b>	<b>SAND BLAST</b>	<b>OPTION</b>	<b>OEM ACCEPTED</b>

Model	KW	RPM	For Tank Size	D	D1	P	L
<b>HBM 90</b>	1.5	~2800	<50L	80	140	200	355
<b>HBM 100</b>	2.2		50L-100L	88	145	200	650
<b>HBM 120</b>	4		100L-300L	120	180	250	750
<b>HBM 140</b>	7.5		200L-800L	140	210	300	900
<b>HBM 160</b>	11		300L-1000L	160	230	350	1050
<b>HBM 180</b>	18.5	~1400	500L-1500L	180	260	350	1200
<b>HBM 200</b>	22		800L-2000L	200	270	350	1200
<b>HBM 220</b>	30		1000L-3000L	240	320	400	1355
<b>HBM 240</b>	37		1500L-5000L	260	340	400	1395

The above sheet show our standard emulsifier mixer size, It could also be customized according to your tank size. According to different working condition, like viscosity etc, so please let our sales know what is going to be emulsified before order
